Dear Mr. Jackson:

The Nevada Division of Environmental Protection (NDEP) has reviewed the *Revised Work Plan for Additional Down Gradient Groundwater Characterization* (RWP), dated November 2, 2005. The RWP proposes the collection of eight groundwater grab samples using direct push drilling technology. The analytical results of these eight samples will be used to determine the best locations for additional down gradient groundwater monitoring wells. **The NDEP concurs with the groundwater characterization activities as proposed; therefore, please make the necessary arrangements to permit and implement the RWP as soon as possible. An Additional Groundwater Characterization Report that includes a work plan for the installation of permanent down gradient groundwater monitoring wells in addition to the analytical results from the RWP must be submitted by December 29, 2005.** Please contact the undersigned if you have any questions or comments about this letter at (702) 486-2850 ext 240 or sharbour@ndep.nv.gov.

Sincerely,
